WORK EXPERIENCE

Alusoft Technologies Ltd, Ibadan, Oyo, Nigeria
Full-stack Web Developer Jan 2022 – Present

As a key member of the development team, I delivered scalable and customized software solutions using Javascript, PHP, and Laravel. I possess in-depth knowledge and practical experience with these programming languages.

I designed and built customized websites that enabled easy content modification without compromising the codebase. I also developed reusable website templates with complete functionality.

I spearheaded front-end development using React, creating intuitive user interfaces that resulted in a 20% increase in user engagement.

I implemented robust backend solutions in Node.js, ensuring efficient API functionality for seamless data exchange between server and client.

I collaborated effectively with the UX/UI design team to translate wireframes into responsive and visually appealing web applications.

I conducted thorough code reviews and mentored junior developers, fostering a collaborative and knowledge-sharing environment.

EDUCATION

National Open University of Nigeria
B.Sc Computer Science Graduation Date: Apr 2026

PROJECT EXPERIENCE

Inventory Management System
Developer
Utilized HTML, CSS3, Bootstrap, JavaScript, Express.js, Node.js, and MySQL.
I developed a comprehensive inventory management system that optimized processes for maximum efficiency.

E-commerce Platform
Developer
Implemented with Express.js, Node.js, and JavaScript, featuring a Flutter UI front-end.

I created a robust e-commerce platform with a focus on user-friendly features and secure transactions.

Editable Website with Laravel

Developer

I developed a fully functional website with Laravel, encompassing both front-end and back-end functionalities. I ensured seamless editing capabilities for content updates, emphasizing a smooth user experience.

Utilized HTML, CSS3, Bootstrap, PHP, Laravel and MYSQL.

SKILLS & INTERESTS

Skills:

Front-End: React.js, JavaScript (ES6+), HTML5 and CSS3, Responsive Design

Back-End: Node.js, Express.js, SQL (MySQL, PostgreSQL), NoSQL (MongoDB)

APIs and Services: RESTful API Design, Authentication and Authorization (OAuth, JWT)

Tools and Practices: Git (Version Control), Webpack and Build Tools, Continuous Integration/Continuous Deployment (CI/CD), Docker

Database Management: Query Optimization, Database Migrations, Transactions

Security: Input Validation, Encryption, Vulnerability Mitigation

Scalability: Load Balancing, Performance Optimization

Other: Test-Driven Development (TDD)

Interests:

Staying current with industry trends and adopting best practices.
